Dbl-K Leap for Joy might fly under most peoples' radar, but she's one of our top favorites of the 2023 calf crop. Despite being the youngest of our spring calves, she's adding horn and frame at a faster rate than any of her peers. Her young dam is exactly what we look for in a female: an excellent producer with a perfect udder and a calm disposition. Her sire, Wheels Up, is pushing toward 100". Joy's parent verified, BVD-PI negative, and color
